FRUITS OF THE NEW COALITION.

The Democratic Senate endorsing the K. N. Platform!

It will be seen by the telegraph report of the Congressional proceedings on Saturday, that the "Democratic" Senate, on motion of Mr. BIGGS, "Democrat," seconded by Messrs. BRODHEAD, of Pennsylvania (!) and Mr. BROWN, of Mississippi, Democrats, amended the bill from the Republican House, for the admission of Minnesota as a State, by *restricting* the rights of suffrage to citizens, native or naturalized, of the United States. Of course, this amendment deprives that large class of foreign-born residents, who have declared their intentions to become citizens, but have not yet perfected their naturalization papers, of all voice in the formation of the State Government. This is "Democratic" gratitude for the successful support which Mr. BUCHANAN received, last November, from the large mass of our adopted citizens. We invite the early and special attention of the *News* to this latest and most authentic revelation of the new alliance between SAM and SHAM.

Improvement of the St. Clair Flats.

The Detroit papers of the 19th instant contain the following letter from Senator CASS, in reference to the Improvement of the St. Clair Flats:

WASHINGTON, Feb. 12, '57.

Dear Sir:—An arrangement is about to be made, which will ensure the opening of a channel over the St. Clair Flats, in the course of the coming season. A proposition has been made to the War Department to excavate a channel 250 feet broad and 12 feet deep, upon the following conditions:

The work to be done immediately; 30 cents per cubic yard for the removal of the obstruction.

The contractors to be allowed the use of the United States dredge boat, now at Detroit, but to furnish, at their own expense, two other dredge boats, tugs, &c.

The operation to be superintended by an officer of the United States.

If the quantity of earth excavated does not amount, at 30 cents per yard, to the appropriation, then the contractors to receive from the United States pay at that rate. If it should exceed it, as it will do, then the United States are responsible only for the sum appropriated, and the contractors to depend upon the means they can raise from individuals or corporations for the completion of the work. No payment to be made by the United States until the channel is finished.

The Senators and Representatives in Congress from the States interested in this work have addressed a letter to the Secretary of War recommending the formation of such a contract.

The Secretary of War has considered the matter, and has come to the conclusion that this plan of operation is the best that can be adopted, and the proper notices inviting proposals upon this basis will be immediately published. The sum, however, applicable to the purpose is $40,000, instead of $45,000, as the balance of the appropriation, $5,000, will be needed to meet contingent expenses.

I am, dear sir, respectfully yours,
LEWIS CASS.

It is possible, that in the pretty certain contingency of the failure of all appropriations for River and Harbor Improvements, at the present session of Congress, the plan adopted by the Secretary of War for the expenditure of the $40,000 in hand, is the best that offers. But it is far short of what the trade and commerce of the Great Lakes imperatively need and may rightfully demand.

It is unnecessary to say that the St. Clair Flats interpose the *only* serious obstacle to the uninterrupted navigation of the chain of Lakes, from Buffalo to Chicago, a distance of a thousand miles and upwards. But for this obstruction, vessels, full freighted, and drawing from 10 to 12 feet water, might make their trips, without let or hindrance, during eight months of the year. These Flats, however, always impede and at times effectually embargo the larger and more heavily laden vessels of our Lake Marine. The value of the commerce which passed these Flats, during the year 1855, was $259,721,455, and during the year last past, it exceeded *three hundred millions.* The actual *tax* on this vast commerce, growing out of the obstructions at the St. Clair Flats, was, for the year, 1855, *two millions, sixty-four thousand, two hundred and seventy-six dollars* (Col. Graham's Report to the Secretary of War—Sen. doc. 73, 34th Congress, 1st session.) For the year last past this tax must have been full *two and a half millions* of dollars. At least two-thirds of this amount falls on the farmers, who are therefore annually assessed, on their produce and necessary articles of consumption, from *one and a half to two millions of dollars*, because the Federal Government blindly, perversely and wrongfully neglects its duty.—And now Gen. Cass and the Secretary of War think they are doing a clever thing, by agreeing to spend the pittance of $40,000, appropriated two years ago, towards digging out a temporary channel through the Flats, which, in all probability, will fill up again next winter!

We are out of all patience with this miserable, picayunish, short-sighted policy. Here is a commerce of *three hundred* millions, affecting more or less directly the people of half the Union, following a devious, but magnificent channel of a thousand miles, obstructed by a *single bar.*—The expenditure of *half-a-million* of dollars—rather less than one-third of the annual tax levied upon the producers of the North-West by reason of this obstruction—would effectually remove it and open a permanent channel. Col. GRAHAM's admirable report contains full details and estimates for the work. It would open and *keep open*, a channel over the Flats, 600 feet wide, 12 feet in depth, 3940 ft. long, leading at both ends into deep water, and protected by substantial piers. How *can* Congress—with millions of money rotting in the Treasury, and all the statesmen of the Republic cudgelling their brains to devise ways and means for reducing a revenue which they are unable to spend—how can Congress, we say, hesitate to authorize this work *at once* and appropriate the money required to complete it? And what *are* the Senators and Representatives of the North West, of New York and of New England thinking about, that they allow day after day, week after week, session after session to go by, without, apparently, an effort to relieve the Commerce of the Lakes from the St. Clair Flats embargo, and the People of the North-West from the annual tax of two millions which that obstruction compels them to pay?

CINCINNATI SPECIAL ELECTION.—According to the Cincinnati *Gazette* of the 18th inst., HOSEA (Republican) is, after all, elected to the Legislature from Hamilton County, Ohio, by *seven* majority over SLOUGH, Democrat. The first count elected Slough by *three* majority, but a revise showed an error of 10 votes in Hosea's favor.

Slough was elected last fall by some two thousand majority, and was *expelled*, a fortnight since, for striking a fellow member on the floor of the House of Representatives, while that body was in session. He was immediately renominated by the Border Ruffian Democracy, but—to the credit of Cincinnati, be it said—the People refused to endorse rowdyism, in the person of Mr. Slough, and elected his Republican opponent.

FROM MADISON.

Editorial Correspondence of the Sentinel.

MADISON, Feburary 20.

The Secretary of State's Report is laid upon the tables of Members. Its financial estimate is as follows:

EXPENDITURES.

Salaries and Permanent appropriations,	$44,750 00
Legislative expenses,	39,000 00
Miscellaneous expenses,	198,633 23
Sundries,	62,932 78
Total	$345,316 01

RESOURCES.

State tax of 1856	$300,000 00
Bank tax of 1857, (estimated)	60,000 00
Railroad tax do	12,000 00
Plankroad. do	1,000 00
Tax on suits do	5,000 00
Telegraphs do	50 00
Hawkers and Pedlers, do	750 00
Arrearages due from banks	1,280 99
Arrearages due from counties, as per schedule "B," herewith	25,508 05
Arrearages due from clerks of court as per statement herewith marked "A"	1,850 85
Deficiency of late State Treasurer	82,358 54
Total	$489,797 93

So the Secretary estimates that $94,481 92 will be in the Treasury on the 1st January next, subject, however, to be diminished by claims of which he can have no knowledge.

Of course the above balance must be at once reduced by the late Treasurer's deficiency, which will leave it $62,123,38.

I think that much of this balance can be seen walking away down into outer darkness, by a little examination of some of the estimates in detail. The "postage" item, for instance, is estimated at $6000, while the sum paid last year was nearly $9000. To be sure there was an extra session last year, but there is a large increase of the number of members this year.

The expenses of "printing" are estimated at $6000, whereas the amount paid last year was nearly $33,000, and the State Printers bill already in, though greatly reduced by the Committee, still foots up over $11,000.

It may be interesting to some to know that our friends Schoeffler & Wendt, of the *Banner* received over $10,000 last year for printing in German, and Mr. Stangeland, for printing in Norwegian, about $8,500. I am afraid that our Republican newspaper friends will not be as liberally provided for now, though something will be done in that way.

Friday and Saturday being non-debating days, business has been driven along, with lightning speed in both Houses, and a large portion of the bills of a local nature were cleared from the files.

Among the long list of bills which passed the Senate, were city charters for Berlin and Mineral Point, and a charter for the Milwaukee Commercial College. There was also an important bill, providing for a survey of the Islands on the Mississippi, and for protecting timber thereon.

In the list also was a bill regulating the purchase of stationery for the state. It provides that all shall be bought by contract, after examining proposals of at least six wholesale dealers. The Governor is to appoint an agent to make the purchase, who is to be paid $200 for the whole service, and who is to report in full. The Supt. of Public Property is to have charge of the stationery, and to give bonds in double its value, and only to deliver it to certain persons named, keeping an account with each department.

THE UNIVERSITY.

The bill to enable the State University to make provision for the erection of another building has been under discussion in the Senate. Mr. Chase spoke in favor of distributing the fund to colleges in various parts of the State, while Mr. Bull defended the University and the bill. The Joint Committee (three Senators and five Assemblymen) appointed to visit the Institution reported unanimously in favor of the object sought by the bill. I hope that it will pass, believing that only by a hearty concurrence of the Legislature in carrying out the plainly implied objects of the University establishment, by a judicious use of all of its funds, and by wise action on the part of the Regents, can it be made to be an advantage, an honor, and a blessing to the State. It is but just now, by the accumulation of its funds beginning to show what it may be made, if fairly and justly treated.

The Senate passed some fifty bills, or thereabouts, mostly of a private and local nature.—Among the few general laws—if by the concurrence of the other House it shall become a law—was one providing that all railroad companies shall erect boards over road crossings, inscribed "Look out for the Cars!" and shall have the engine bell rung while passing through streets of cities and villages.

STATE LUNATIC ASYLUM.

The Assembly select Committee in the Lunatic Asylum reported, by Dr. Cameron, a bill, whose general features are as follows:

The Governor to appoint three Commissioners to build an Asylum on the site heretofore selected, if the title is perfect. They are to examine and select a plan to accommodate 250 persons—to advertise 8 weeks for proposals, the plans to be public—to contract for the building, rejecting all proposals if none are favorable for the interests of the state—not to be interested in the contract under $20,000 fine and to receive $5 per day while actually employed. The bill appropriates $70,000, one half of that sum to be paid this year, if needed, and one half next year.

The Assembly passed 70 bills to-day, and ordered to a third reading 50 more. It is now, as it always has been for the last seven years or more, a great pile of trash—to speak respectfully—which ought never to come into the Legislature at all.

Special characters innumerable—now as always—go right along, in defiance of the Constitutional provision against them, and babies names are changed, alleys are vacated, &c., as usual. I will look over the list to-morrow and see if I can pick out anything of general interest.

Mr. Lovell, in the morning session, and Moses M. Strong, in the afternoon, as Chairman in Committee of the whole, drew the general file down to its last bill, leaving over only those which give rise to debate, and it is probable that something of interest may be reached to-morrow, the light stuff being cleared away.

The bill providing for an additional number of Grand Jurors for Milwaukee Co. passed the Assembly to-day.

A bill has gone to a 3d reading giving all Railroad Companies, hereafter, to the 1st of March to pay their State taxes.

Of course all bills of any account were laid aside to-day, and will be to-morrow until all other business is disposed of. Next week will be a busy week, as there are many bills of importance to be acted upon. By avoiding long speeches, and keeping steadily at work, there is time to consider everything that is necessary, though there will doubtless be evening sessions part of the week. There are yet to be considered, in one House on the other, or both Houses, several County Seat bills, besides the following, which now occur to my mind:

The University Bill.

The bill for the preservation of the purity of the ballot.

The Suffrage Bill.

The Lunatic Asylum Bill.

The bill for the enlargement of the Capitol.

The bill for the various Asylums and for the State Prison.

The subject of an appropriation for Kansas.

The Assembly Law.

Work enough here, for *one* week!

W. H. W.

EXTRA SESSION OF THE SENATE.—The President has issued his Proclamation calling the U. S. Senate together, in extra Session, on the 4th of March next, to act upon the nominations that may to be submitted to them by the President elect.

For the Sentinel.

The Lunatic Asylum--Dr. Castleman.

DELAFIELD, Feb. 19, '57.

MESSRS. EDITOR:—Since handing you my note of yesterday for publication, correcting the inference of your Madison Correspondent, in his communication of the 15th inst, my attention has been drawn to his letter of the 13th, which I had not previously seen.

I cannot believe that your correspondent would wilfully misrepresent me, yet in the absence of such supposition, it occurs to me that our Legislature has made a poor investment in employing a special reader. My explanations of yesterday I deemed due to Ex-Gov. Farwell—those of this note, to myself and the public.

My propositions to the State, to build a Hospital for the Insane, and to take charge of the State lunatics, have not, to my knowledge, been published. To assist me in placing the subject properly before the public, and clearly before your correspondent, I beg leave to insert a synopsis of them here.

In the summer of 1855, after the repeal of *the* Lunatic Asylum Act, and the repudiation of the contract with Andrew Proudfit, a contract was entered into between Ex-Gov. Farwell and myself, by which Farwell was to relinquish to me his right to the lands on which the Asylum was to have been built; in consideration of which, I was to pay the State $1500, and was to expend $25,000, in a specified time, in the erection of Asylum buildings. In consequence of an unwillingness on the part of Ex-Gov. F. to fulfil his part of this contract, after I had made arrangements to begin the work, I, for a consideration, released him, and the contract was cancelled.—Now, I presented a copy of this contract to the Legislature, simply as a basis on which to make a proposition; and the proposition was, that if the State would take the place in that contract, formerly held by Ex-Gov. Farwell, I would pay to the State not only the $1500, but an additional $3000, making in all $4,500; that I would perform all the covenants imposed on me by that contract, and that I would, in addition, take care of all the State Lunatics, on terms to be agreed on, either now or as the services was rendered; giving to the State, at all times, preference to private applicants for accommodations. This does not look much like asking the State "to pay him for relinquishing whatever rights he may have acquired"—and I hope your correspondent will examine and see if I state correctly. I have no copy of the proposition—will he correct me if I have erred? I have acquired no rights, and ask for no pay.

My other proposition was that, in the event of Gov. F.'s refusing his assent to this arrangement, if the State would loan me, on *satisfactory security*, the sum of $10,000, I would at once invest $35,000—including the $10,000 loaned—in the purchase of a suitable site, and the erecting of the necessary building with some other privileges to the State, and that I would take charge of the State lunatics as proposed above.—Now, will your correspondent compare this with my communication to the Legislature, and also with the *tone* and letter of his statement, and see how they will correspond.

I have not the slightest idea now that the Legislature will accept either of these propositions, although I am satisfied that by accepting either it would save to the State in the next ten years at least $200,000, and yet be a profitable investment for me. Any rational man, conversant with the expenditure of public money, will acknowledge that an individual, working for his own interest, will accomplish more with $35,000 than the State will with $70,000; and that, after the buildings are erected, patients can be cared for at half the cost by an individual that they can by the State.

Will you do me the kindness to give this an early insertion, and oblige,

Yours very truly,
ALFRED L. CASTLEMAN.

Taking the Appointing Power out of the President's hands.

Recently a Virginia Caucus dictated to Mr. Buchanan whom he must nominate for a Cabinet seat. Following this example, the Democrats in the Wisconsin Legislature have been caucussing and have parcelled out the offices in that State without so much as saying to Mr. B. "by your leave":—

The Constitution vests the appointing power in the President and Senate. But according to the new Democratic theory, Presidents and Senates have only to register the decrees of State Legislative Caucuses.

How much confidence does his own party place in the in-coming Executive, if they dare not even trust him to make his own appointments?—*Albany Eve. Journal.*

It is the politicians and office-seekers of the party who distrust Mr. BUCHANAN. The masses would no doubt be perfectly willing to leave the appointing power, where the Constitution and Laws vest it, in the hands of the President. Indeed, so far as this State is concerned, the "rank and file" of the democracy would decidedly prefer that Mr. BUCHANAN should select for himself, rather than succumb to the decrees of the secret caucus.

THE ILLNESS OF DR. KANE.—The following is a copy of the despatch sent from Mobile (whither it was brought by the *Quaker City* from Havana) to Mr. GRINNELL, in New York, giving the melancholy tidings of Dr. KANE's approaching decease:

"HAVANA, Feb. 13.—Dr. Kane is still alive, but cannot last through the day. His mind keeps right. He has just left his friends, and bade his countrymen farewell. WM. MORTON."

Mr. Morton has been Dr. Kane's servant and steward for seven years past, and accompanied him to the Arctic regions. Dr. Kane was 34 years of age. His disease was of a scrofulous nature, arising from scurvy and exposure during his northern explorations.

THE PASSENGER WAR.—The Buffalo *Express* learns from the east that there is to be a renewed war this season, between the Great Western and Lake Shore Roads, for passengers in transitu between the east and the west. The passage offices east of Buffalo, which were closed by arrangement last year, are to be re-opened, and agents and solicitors are to come in fashion again.

BADLY OFF.—The Monroe (Green Co.) *Sentinel* says that the citizens of Broadhead, in that County, are denied a Post Office, because there is not a single Pierce or Buchanan man in the village to officiate as P. M. Post Offices, it appears, are established for the good of the party, not for the benefit of the People.

A WOLF ON A VOYAGE.—The Madison, Ind., *Courier* says: "A large gray wolf, from the Allegheny mountains, no doubt, was captured by adventurous citizens of Utica, (just above Louisville,) Saturday last, on a huge cake of ice floating in the river. He had evidently been on the voyage some time, for he was gaunt and hungry. He was taken alive with numerous ropes and bags."

WHAT ONE GOOD HORSE IS WORTH.—*Porter's Spirit of the Times* says that Vermont Black Hawk earned for his owner, without leaving his stable, a sum rising of $27,500; and gave courage, grace, beauty, speed and fire to some ten or twelve hundred colts.

COAL.—The Pittsburg *Post* of Tuesday says there cannot be less than from eight to ten millions bushels of bituminous coal ready mined along Monongahela Slackwater, awaiting transportation by water.

THE GERMANS FOR EMANCIPATION IN MISSOURI.—The German papers of Missouri very generally come out in favor of free Labor in that State, as likely to advance its domestic prosperity. The Anzeiger declares that the question "cannot be too much discussed," and that "*the Emancipation party in St. Louis already stronger than the Benton party ever was.*" The same paper declares that, notwithstanding the movement was so sudden, it has gained many unexpected friends and supporters in the ranks of the National Democracy. The Anzeiger adds: "It is certain that St. Louis, and probably a few other counties, are ripe for this agitation; and that any movement on the part of the borderers in Western Missouri to interfere again in the affairs of Kansas will certainly be the signal for the question of emancipation in Missouri." The Volksblatt also occupies much the same ground.

Old Love Song.

BY C. H. K.

This is the birth-day of my love
Then vanish care and sorrow;
To-day shall mirth and pleasure reign
Though grief should come to-morrow.

My love draws near with airy tread,
And glances shy and sweet;
Sing, little birds! above her head;
Bloom, flowers, beneath her feet.

The happy earth is once a year
Drest out in Spring's array;
But, when my lady walks abroad,
With me 'tis ever May.

The Burdell Murder Case.

Coroner Connery yesterday examined John J. Eckel, Emma Augusta Cunningham or Burdell, and Geo. Vail Snodgrass, the persons implicated in the murder of the late Doct. Harvey Burdell, at No 31 Bond street.

Eckel stated that he is 24 years of age, was born in Morristown, New Jersey, and by occupation is a dealer in hides and fat. In relation to the charge against him he said:

"I can say no more than that I am innocent of the charge."

Mrs. Cunningham, or Burdell, stated that she is 36 years of age, was born in New York, and never had any occupation except that of a mother and wife.

In relation to the charge against her she said;

"I most certainly say that I am entirely innocent."

Snodgrass stated that he is 18 years of age, was born in Troy, N. Y., and by occupation is an entry clerk. In relation to the charge against him, he said:

"I am entirely innocent. I know nothing of the facts relative to the murder of Dr. Burdell.—If any one knows anything about the murder of the family, I think it is Miss Augusta Cunningham or her mother. Understand me—that is, if the murder was perpetrated by any one of the inmates of the house."

At the close of the examination the parties were recommitted to prison to await the action of the Grand Jury.

The following letter, postmarked Cincinnati, Ohio, and addressed to Eckel, was received by him yesterday:

"CINCINNATI, Feb. 15, '57.

"MR. JOHN J. ECKEL—The murderer of Dr. Burdell laughs at the surmises of the d—d fools of New York city. I am truly sorry for you that you are suspected, for it is my crime, not yours, and the authorities can go to h—l and catch me if they can.

"Yours, A BOLD WRITER.

Congressional.

WASHINGTON, Feb. 20.

SENATE.—The Senate passed 80 private bills including one for paying the officers and Seamen of the expedition under Lieutenant DeHaven.

Mr. Wright presented the credentials of Mr. Thomson, re-elected Senator from New Jersey.

Mr. Gwin introduced the Pacific Rail Road bill.

Adjourned.

HOUSE.—During the proceedings, Mr. Orr said that Congress should pass even the bill of the majority of the Committee of Ways and Means rather than none at all, and on his motion the Committee arose, thus relieving itself of the many pending amendments.

Mr. Campbell, of Ohio, submitted an original bill—the same, with several slight alterations, as the last one reported from the majority of the Committee of Ways and Means, and expressed his views on the subject.

Mr. Letcher's substitute, proposing a general reduction of 20 per cent on the present tariff was rejected—74 against 112.

Mr. Campbell's bill by 110 against 84.

The Post Office appropriation bill then came up.

Mr. Stanton said that the Tariff bill was passed by trickery and fraud, and outside interference and combination, and by those favoring the protection of hemp, sugar, iron and Massachusetts woollen goods. This was done against his protest. The measure was striking a blow at wool growers.

Mr. Campbell, of Ohio, regretted the remarks of his colleague and regarded his insinuations as basely calumnious both to himself and his colleagues on the committee of Ways and Means.—the bill just passed was predicated on the principles recommended by the Secretary of the Treasury.

Mr. Carlisle made a speech in favor of equalizing the grants of land among the several States of the Union.

The House adjourned without taking the question.

Great Conflagration at Mobile--Twelve Thousand Bales Cotton Burned--Loss Over Half a Million of Dollars.

On the 9th inst., about 3 o'clock P. M., a fire broke out in the Montgomery Warehouse at Mobile, Ala. This warehouse was closely packed with cotton, and the flames soon spread to the Hunt Warehouse, next South, and then to the Planter's Warehouse, all of which were destroyed.

The quantity of cotton consumed is variously estimated, but from the most reliable data we can obtain, we believe the following a fair statement:

Montgomery Warehouse,	capacity	...	6,505
Hunt's	"	" ...	3,000
Planter's	"	" ...	3,000

It is believed that these warehouses were all well filled and that not more than four or five hundred bales were saved from them all—so that 12,000 bales is a very moderate estimate of the loss. This at about $61,25 per bale—about the present value of cotton—would amount to some $735,000 loss—besides the value of the warehouses themselves, which, however, is comparatively inconsiderable. The Montgomery, and Hunt's warehouses are attached to the Shippers' Press, owned by Messrs. Clvis & Magee—the other belonged to the Planters' Press.

GEORGE R. DAVIS, JR., OF TROY, FOUND DROWNED.—We learn from the Troy Times of last evening that a teamster yesterday afternoon discovered the body of a man partly in the water, and his head lying in the mud of the bank, in a ditch of the vacant, unfilled lots, rear of the Rail Road Station House, between Second and Third streets, in the lower part of the city. On approaching the body, he discovered that it was George R. Davis, Jr., Esq., one of the Justices of the Justices' Court in that city, and Clerk of the Board of Supervisors.

A Coroner's Jury was empanelled, and it was elicited that Mr. Davis was last seen at the Montezuma House, in Rand's New Building, about 10 o'clock Monday night. He must have wandered from there in a delirious state of mind, and attempting to cross the vacant lots, he did not observe the embankment nor water in the ditch below, and unconsciously walked into the slough. He was so chilled and overcome that he could not get out, and there perished in the mud and water.—*Albany Journal, Feb.* 19.

FROZEN.—We learn from Dr. Boswell, a man by the name of Alexander Nelson, a Scotchman, was frozen to death about three weeks since, about 14 miles north of Marinette. He had started to go to Cedar River, but not being properly clad, and the weather very severe, he could not reach his place of destination. A man was in sight of him when he fell down, but being, himself, in about as bad a condition, (with both feet frozen) could render him no assistance.—*Green Bay Advocate, Feb.* 19.

Why are kisses like the creation? Ans.—Because they are made out of nothing, and are very good.

[The perpetrator of the above was sentenced to kiss fifteen young ladies as punishment for his offense. He took the matter very coolly, saying that he considered kissing *capital punishment.*]

MILWAUKEE, February 23, 1857.

Received by Mil. & Miss. R. R.—2221 bu wheat, 75 pelts, 20 hides, and sundries.

By LaCrosse & Milwaukee R. R.—5444 bu wheat, 90 bbls flour, 37 hides, 66 pelts, 18 M shingles, 8580 lbs sundries.

Watertown Division—54 bbls flour, 175 bus wheat, 1,600 lbs sundries, 6,790 lbs potash.

Light receipts, Saturday. Market active and prices firm. No change in quotation, since our last. We note sales as follows:

WHEAT—firm and active, 94 for Club; 1,00a1,12½ Winter.

BARLEY—in request, 1,30a1,50.

RYE—quiet, 68a70.

OATS—wanted, 40a42.

CORN—dull, 48a50.

PORK—scarce, $8 50a9 00 for good hogs.

Weather fine overhead, on Saturday, but with a decided tendency to mud in the streets.

THE WINTER WHEAT IN MICHIGAN.—The Jackson (Mich.) *Patriot*, of last week, says: "We have visited different portions of the town since the snow disappeared, and we never saw the wheat look better; if present appearances continue, it will be the best crop we have had for years."

PRODUCE AT CLEVELAND.—We learn from the Cleveland *Herald*, of the 19th inst., that there was in store, at that point, on the 14th instant, 6,995 bbls flour, 29,340 bus wheat, 7,000 do corn, 31,500 do oats, 3,000 do barley, 751 bbls pork, 5,125 bbls salt and sundries.

MARINE INTELLIGENCE.

OUR HARBOR.—The New Harbor at the "Straight Cut," is open and free from ice, as it has been *all winter.* The river, too, all the way from the Straight-Cut to the Blue Warehouse, is clear of ice, while between the Straight Cut and the old Government Harbor, it is still frozen over. This is a remarkable and most satisfactory illustration of the value of our New Harbor.

POLICE COURT, FEBRUARY 21.

BEFORE CLINTON WALWORTH, POLICE JUSTICE.

Frederick Schroeder, drunk and disorderly, sent to jail for 30 days in default of $15 fine.

Catharine Pollen, disorderly, fined $5.

Ann Simmons, disorderly, fined $2.

Jesse M. Van Slyke, drunk, sent to jail for 30 days in default of $10 fine.

Abby Fitzgerald, drunk and disorderly, sent to jail for 30 days in default of $10 fine.

A. W. Coe, charged with driving his team on sidewalk, case continued to Feb 23d at 9 A. M.

John Doe, alias, violating Police Ordinance, case continued to Feb. 23d 9 A. M.

William Miller, charged with assault and battery, case discontinued for want of prosecution.

CHARGED WITH BURGLARY AND LARCENY.—A warrant was issued against two men named John Fiskins and Henry Wright, now in custody on a charge of breaking into and stealing from the office of Cummings & Goodrich, in the Third Ward, a quantity of brass fixings. The offence was committed on the 7th of February.

THE GREAT SWINDLE.—In our article, Saturday, giving an account of the swindling operations of *Thos. C. Gilmann*, we stated that all the Banks in our city, except the Second Ward Bank, had suffered by his rascality. This was an error. The Bank of Milwaukee, Marine Bank and Bank of Commerce escaped, as well as the Second Ward Bank. The amounts which Gilmann obtained from different Banks and Bankers in our city were incorrectly given in the *Wisconsin* of Saturday and *News* of yesterday. He got $3,000 each, from the State Bank and Wisconsin Marine and Fire Insurance Co. Bank, and $2,500 each, from the Farmer's & Miller's Bank, People's Bank, Marshall & Ilsley and Townsend, Bean & Burlock—making $16,000 in all. As to the amount that Gilmann obtained, by like frauds in Chicago, it is variously reported at from $30,000 to $70,000. We see no mention of it, however, in the Chicago papers of Saturday.

The following paragraph from the Detroit *Tribune*, of Friday, 20th inst., refers, probably to another one of the gang:

THE CYRUS F. TRUE CASE.—The Rochester Union, in noticing our account of this transaction, adds the following comments:

"It is proper to state that another of the True family is in a similar difficulty in Toronto or Hamilton, where he negotiated drafts made by Wm Breck upon L. W. Jerome & Co., New York. The particulars of this affair have not been published.

It is reported in the streets to-day that Mr. Breck has closed. A banker informs us that his letters from Albany this morning state that Mr. Breck's drafts are dishonored."

THE CARNIVAL.—It sounds strangely, indeed, in this far Western city of only twenty two years growth to talk of a "Carnival," and yet our advertising columns bear witness to the fact that most ample preparations, are on foot for such a festival. The "*Carnevals Verein*," a German Society, open the ball to night, at the Theatre on Market Square, with a grotesque and amusing performance, and make a day of it, to-morrow, winding up with a grand Masquerade Ball at "the Albany." Their advertisement gives full particulars.

Our Milwaukee Musical Society also celebrate the Carnival by a Masquerade Ball at Young's Hall, which promises to be the most brilliant affair of the kind ever seen in the West. So far as the best music, tasteful decorations, amusing marques, an excellent supper, and an elegant assemblage can render such an entertainment attractive, and *successful*, they will all be found at Young's Hall to-morrow night.

THAT HUMAN HAND FOUND.—A close examination of that human hand found by a dog, a short time since, shows that it was *cut* from the wrist, and that in all probability it is a woman's hand, from a corpse not to exceed six weeks old; the flesh as yet, in some places, exhibits no signs of decomposition. Some time ago the finding of the bodies of slaughtered citizens was a common occurrence; legs, arms and bodies were found in the river, the victims of murder. We had no police then; now we have, and I we *trust* they will use all endeavors to find the corpse, to which this hand belongs, and from which it was cut with some sharp instrument. The thing looks like foul play somewhere; and if the reward for Gilman is not so large as to kill the scent for other matters, we may yet be able to give the public the history of this human hand.

ALMOST A FIRE—PROMPT ACTION OF ONE OF THE INMATES.—About 2 o'clock A. M. Saturday, a fire was discovered in Furlong's Block, East Water Street, in a back room, in the third story, immediately behind the office of Mr. Trowbridge, City Surveyor. A young man n the employ of the city Surveyor, and who slept in the office got up and went into the room and found that a barrel of cut tobacco was on fire, as well as some papers, &c., on the floor. He stamped out the fire with his feet and got the contents of the barrel extinguished, burning his hands and cutting one of his feet in the act. The name of the young man is Theodore Brown, and we have to doubt he was the means of preventing the block from eing burned.

IMPORTANT SALE.—We notice elsewhere the le of three river lots to a heavy Chicago Forwarding use. They propose to erect, at once, a large Ware-use for the transaction of their business. We hear of eral other negotiations of the same sort on foot; all in w of the speedy opening of a new route for freight and vel, between the East and the Upper Mississippi, by of the Milwaukee and Mississippi Rail Road. We erstand that the bulk of goods to be shipped from York, for Upper Iowa, Wisconsin and Minnesota, ng the next two months, are contracted through by new, more direct and more expeditious route.

ASHINGTON'S BIRTH-DAY.—The Light Guard, Guards, Black Yagers, City Dragoons, and Wash Artillery, paraded on Saturday, in honor of the The Companies all looked and marched well, and spiriting strains of martial music filled the air melodious echoes.

Notice Extraordinary!

WE WOULD NOTIFY the merchants and the public generally in the Western States that the Match Manufactory of R. W. PIERCE & CO., Milwaukee, Wis., is in full and successful operation, notwithstanding the declarations of a match concern in Detroit, Mich., that our establishment had burned down—that R. W. Pierce & Co. had failed—that no more R. W. Pierce's matches would be seen in market, &c. &c. We are well aware that all such assertions will in due time recoil with bad effect upon the party who originated them, and what we wish is, that the public should be set right in the matter. We now have facilities for manufacturing matches as cheap, or cheaper than any other establishment in the West, and as to the quality, we will leave those who have used them for the last thirteen years to be the judges, and will only remark that our business has increased from less than $1000, in 1844, to more than $59,000, in 1856.

All orders for matches promptly filled.

From Washington.

WASHINGTON, Feb. 21.

The President has approved the bill increasing the pay of officers of the Army.

The post office bill which passed the House today, appropriates upwards of sixteen millions of dollars for operations on land service next year.

The expenses of the Investigation Committee are estimated at nearly $5,000.

Arrival of the Steamship Tennessee.

NEW YORK, Feb. 21.

The Steamship *Tennessee* arrived here this evening from Aspinwall, via San Juan and Key West, with three hundred and fifty passengers, and $26,000 in specie. She left Aspinwall on the eve of the 15th.

The English ship *Meteor*, from Mobile, for Liverpool, had put into San Juan, leaky. The *Tennessee* left before the *Texas*, which had arrived at New Orleans, and also before the result of Col. Lockridge's expedition was known. Col. Titus, with his recruits, went up the river with Lockridge, and took up a position opposite the enemy at Serapique. Col. Lockridge has made all his arrangements, and the attack was to be made on the day the *Tennessee* left.

Lockridge's force was estimated to have been 550, that of the Costa Ricans 800. The affairs near Rivas and at St. George, between Henningsen's command and the Costa Ricans, differs from that brought by the Texas. In the fight near Rivas Capt Kinney was killed, and the American suffered other losses, but it does not appear which party was victorious. Henningsen's attack on St. George was made with 400 men; the enemy having, as is stated, 1,500. After several hours fighting, Henningsen retired, as is stated, with inconsiderable loss, excepting that several of his officers were mortally wounded, including Col. Jacques and Maj. Dusenberg.

The Costa Ricans' loss was supposed to be great. Gen. Bosquet was killed.

At last advices the Nicaraguans had withdrawn from the allies, and were in the vicinity of Granada waiting the arrival of ammunition from Graytown.

At last accounts from Walker, Feb. 3, he was at San Juan del Sur, with 200 men.

THREE P. M. REPORT.

Congressional.

WASHINGTON, Feb. 21.

SENATE.—Mr. Wilson gave notice of his intentions to introduce a bill granting to the cities of Washington and Georgetown, 3,000,000 acres of land for the support of their public schools.

The Senate then proceeded to the consideration of the House bill to authorize the people of Minnesota to form a constitution and State Government, preparatory to their admission into the Union.

Mr. Biggs moved an amendment that none but citizens of the United States, be entitled to vote in reference to the formation of a constitution and State government, he did not know but that the offering of such a proposition might subject him to the suspicion of being tainted with Know nothingism.

But whether this was one of the principles of the American party or not, he was decidedly in favor of having native or naturalized citizens vote only in the formation of all organic laws.

Mr. Brodhead alluded to the action of the Senate on the Nebraska bill. They adopted an amendment similar to this, which the House struck out, and when the bill came back to the Senate, he again moved to insert that provision in the bill, he being the only Northern member who sanctioned that amendment, from beginning to end. The others who voted for it at first having yielded their convictions in order to allow the bill to pass. Hence he was in favor of the present proposition, because he believed the right of suffrage was so extensive with the right of citizenship. He did not feel at liberty in defending the rights of voters to go further than the Constitution of his own State has gone and that has confided the right of suffrage to citizens of the U. S.

Mr. Brown expressed his hearty concurrence in the views expressed by the Senator from Pennsylvania.

Mr. Douglas replied to the remarks of Mr. Biggs maintaining that the amendment was improper, and showing in several instances where persons have been constituted citizens of some of the States who were not the citizens of the United States.

HOUSE.—The House passed the post office appropriation bill. The resolution providing for the impeachment of Judge Watrous, of Texas, for high crimes and misdemeanors, was then taken up. Mr. Caskie advocated the postponement of the subject until the first Monday of December.

Mr. Wakeman mentioned the fact that the case of Judge Peck was presented during the last week of the session of Congress. The House declared that he (Peck) was liable to impeachment, but the subject went over to the next Congress, when Judge Peck was impeached and discharged from office, and hoped that the resolution pending would be postponed until Saturday next.

Mr. Barlow concurred in the suggestion. Mr. Humphrey Marshall did not know how the House could better repair the injustice done Judge Watrous than by ordering his impeachment. The House might as well do it now—if he were Judge Watrous, he would demand it.

Mr. Ready said although he had no right to speak by authority he understood that Judge Watrous desired an investigation, and thinks he will be perfectly able to refute the charges.

Mr. Savage thought it a most monstrous proposition to think of seriously considering the subject before the evidence is printed. The subject was then postponed till Saturday next.

The House took up the resolution reported from Committee on Elections, that Mr. Whitfield was not entitled to a seat as delegate from Kansas. On motion of Mr. Caruthers, the resolution was tabled by a vote of 98 against 85.

The House then went into Committee of the Whole on the state of the Union. Mr. Washburne, of Ill., vainly strove to take up the River and Harbor bill.

The House then proceeded to consider the deficiency bill.

The Central American Treaty.

INDIAN FIGHT.

NEW YORK, Feb. 21.

CORRESPONDENCE COURIER & ENQUIRER, Washington, Friday night.—The Senate yesterday resumed the subject of the Central American treaty. A motion of indefinite postponement failed, by a vote 19 to 36. Gen. Cass advocated concession to England and a general conservative and peace policy. His speech was warmly applauded by the Republican senators and some Democrats. It is understood the Treaty is simply laid aside till after the 4th of March. An executive communication was received from the President covering Lieut. P. St. George Cook's account of his fight with the Bois Brule Band of Sioux Indians, in which were killed 75 Indians —43 prisoners taken, and 14 mules and ponies captured. Capt. Howe's company "G," Fourth Artillery, Capt. Heth's company, E. 8th Infantry and the 2nd Dragoons were engaged in this fight.

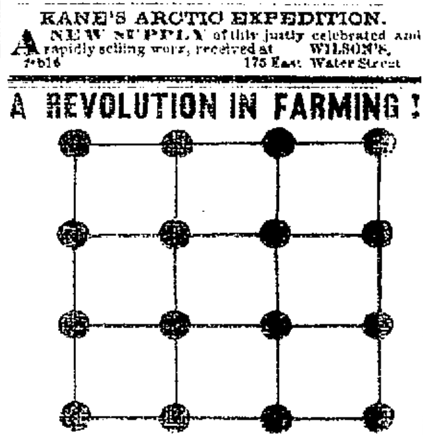
A REVOLUTION IN FARMING!



Corn Planted by Machinery.

A SUBSTITUTE for the slow and tedious process of planting corn has long been a desideratum; but until now the labored efforts of inventive genius have failed in its production, though years and much money have been spent to accomplish so great a piece of mechanism.

Some estimate of the importance of an invention that will materially facilitate the production of this great staple may be formed from the fact that in 1850 near 600,000,000 bushels were raised in the U. S., exceeding in value all other grains, with the entire cotton crop in addition.

The present universal method of planting this great crop is (after the ground is ploughed) by marking out the surface 3½ or 4 feet apart each way, and in the angles thus formed, a man drops 4 or 5 kernels, and covers with a hoe at an expense of $1 a 1 25 per acre; but failure of part and sometimes the whole crop results from the difficulty of obtaining sufficient force at the proper time in the spring to secure the planting at the most critical period.

Practical men understand this everywhere. Numerous devices and machines have been made, but failure has only resulted. A plan perfect in one respect was certain to fail in another, so as to render the whole worthless.

No machine until now has been made to meet the universal demand of the farming interests in HILL, check, or angular planting, so as to enable him to cultivate with plough and harrow on the crop—both ways between the rows.

Drill planting is abandoned because of the impossibility of cultivating but in one direction.

The long wished for machine has been invented and perfected by a young Scotchman, and is the result of three years unwearied efforts, patient investigation and the application of scientific and mechanical principles to accomplish a desired object.

The device is entirely new, simple and beautiful, working automatically and yet so ingeniously and naturally as almost to appear the result of instinct.

What Whitney's great invention did for cotton this greater invention will do for corn, viz: augment the quantity and diminish cost.

No description could convey a clear idea of its peculiar and simple mechanism.

Without any Cogs, Band, Pullies, Cranks, Shafts, Springs, Levers, or Gearing of any kind, with a horse, guided by a man or boy, this machine executes in a neat and perfect manner the following described work, being what is wanted by every farmer:

1st. Furrows out the ground any required depth.

2d. Drops the corn (as many kernels as desired) in a space of 4 inches diameter mathematically in the HILL equidistant, in one-tenth of a second.

3d. Covers the HILLS and presses the earth as you do with a hoe.

4th. Marks actually the position of each HILL.

5th. Deposits, if wanted guano, Poudrette ashes, lime, plaster, or other common fertilizers, exactly in the Hill

And 6th. Also, sticks the pumpkin or squash seed in the HILLS at the usual distances, as now done by hand.

And all this at a cost of 15 cents an acre by single machine, and 10 cents per acre by a double one—10 acres being planted by the first, and 20 by the second, in one day, with no more force than a man and horse.

We are aware these statements look fanciful to that large, stereotyped, old fogy class, who are about a quarter of a century to the rear of this progressive age, and whose ideas revolve in the old, slow coach train; but we assure all such antiquated gentlemen that every word is literal, naked, unadulterated truth, obvious, clear and distinct to the most obtuse intellect, or the dullest comprehension, besides being demonstrated by actual use on an extensive scale.

Here is a magnificent Monopoly of a great staple machine, of immense intrinsic value. It must reach the large productive class, whose interests are not alone promoted in its acquisition, but in its application the millions are to be blest in the increased production of grain, and consequently cheap bread.

In the distribution of this splendid prize, (*and it really is*,) there is a rare chance for a safe investment, lucrative beyond all ordinary calculations; in short the truth in this connection seems almost fabulous.

Sole proprietors, we are willing to divide upon an equitable basis, and offer the monopoly of this magnificent speculation for States and Territories upon the following farm, from which ☞ THERE WILL BE NO DEVIATION. ☜

All New England and Southern States *five cents* per farm. All other territory, six cents per farm—except Illinois, which will be ten cents per farm; Minnesota, $1000; Kansas and Nebraska, $800; California, $600.

New York State will be sold in counties to suit parties who wish to invest in limited sums. The census of the United States in 1850 will be the basis of estimate.

Terms of payment liberal and accommodating; and to a company who wish to take the entire interest we will sell at a fair figure. We invite the public to examine this subject, and will exhibit the machine with pleasure, but especially to those who take an interest in the material progress of this inventive age, as well as to those who cannot fail to find this an available medium of replenishing their exhausted pockets, or augmenting their already ample resources.

P. S. We have made provision for the supply of all orders, for machines for machines at $19 each with the fertilizer, or $18 without—retail; (¼ off wholesale) until the territory from which such orders come is sold; and when transferred will make an equitable discount in price of territory, for machines thus delivered. Each purchaser of States controls the making, selling and price in their territory; and if not ready to manufacture for ensuing spring sales, we will furnish by 100's or 1000's at a shade advance on cost, leaving a margin sufficient to satisfy the most exacting cupidity.

INSTRUCTION.

SALOM'S MERCANTILE COLLEGE!

A Perpetual Ticket for $25!

GENTLEMEN desirous of acquiring a thorough Mercantile Education, are assured that the advantages presented at this institution are unsurpassed.

The Principal takes this opportunity to acknowledge the courtesy of several of the most distinguished Shipping and Jobbing Houses in the East, who recently allowed him to examine their books, besides explaining many original plans for economizing labor, which, adopted as in some instances after the experience of half a century, may be justly designated the *ne plus ultra* of the art.

These advantages, grafted upon Mr. SALOM'S long practical experience in a variety of Counting Houses, have enabled him to elaborate a novel and valuable series of transactions, introducing all the great heads and ramifications of mercantile routine to be actually developed by the student. A perpetual ticket confers the privilege of instruction in Book-Keeping at all times, as well as tuition in Writing, Mercantile Calculations, Law, Correspondence Forms, &c.

The Surveying and Mathematical department is in progress during the day and evening.

LESSONS IN Foreign Languages.

MR. AND MRS. L. S. R. DE CRETY, from Paris, for four years past instructors in foreign languages in Milwaukee, have the honor to inform the public that they will form classes in the French, Italian and Spanish Languages on the 1st of September next. The course of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their house being arranged with that view.

Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation, Mr. De Crety furnishing books of the best French authors. Those too wishing to learn vocal music in either of those languages, will find a competent music teacher in the establishment.

The hours of instruction will be from 8 to 11 o'clock A. M., and from 2 to 5 P. M., and in the evening from half past 6 to 8, for conversation.

Mr. DE CRETY will also give lessons in French, Spanish and Italian, at his office, to gentlemen only, from 7 to 10 o'clock in the evening, as also lessons in Fencing, the use of the Sword, and all military exercises. Persons of delicate constitution and feeble temperament, as also those confined to their offices and engaged in sedentary pursuits, will derive from these exercises, improvement in their health, acquire strength in their limbs and find an agreeable recreation.

Mr. De Crety will also form similar classes for children, from 10 to 15 years old, at his house, or office, as parents may prefer. Fathers and mothers who desire to see their children strong, active and robust, can judge for themselves, after a few weeks trial, as to the effect of these different exercises upon their health.

The continued patronage of the public is respectfully solicited.

TO MERCHANTS.—Mr. De Crety will take charge of French correspondence to all the principal cities of France and will procure all Price Currents that they may want.

BAYLIES & LINCOLN'S Milwaukee Commercial College

212 and 214 East Water St.,
MILWAUKEE, WISCONSIN.

THE proprietors of the Milwaukee Commercial College would respectfully announce that the liberal patronage that has been extended to this deservedly popular enterprise has led them to extend the field of study, so that it will embrace every branch of a thorough Commercial Education. As there are no classes formed in any department of study—(thereby enabling the student to enter any time, each one receiving separate instructions)—the student, on entering, is placed in the Counting Room, with actual transactions to work from, thus making his education not merely theoretical, but practical to the last degree. The Commercial Course comprises Book Keeping by Double Entry, in its various forms, as adapted to Wholesale, Retail, Commission, Manufacturing, Custom House, Banking, Railroading, in stock partnership, and compound Company business, Commercial Calculations in per centage, Exchange, Bank and Regular Discounts, Averaging, Accounts by Simple and Compound Equations, &c., according to the most approved methods. Commercial Correspondence, including account sales, account currents, drafts, bills of exchange, &c. &c.

Also, a perfect system of detecting Counterfeit Bank Notes, will be given to each student.

A good Hand Writing guaranteed to every person completing a full course.

During the Seasons, Lectures on Commercial Law will be delivered by eminent legal and business men, and no pains will be spared to make this department particularly attractive.

The Reading Room will be supplied with the various Daily and other papers and publications.

Particular attention will be given to Ladies who may wish to acquire a business education, and separate rooms have been beautifully fitted up for their use.

Merchants and other business men are informed that, at any time, by a few days' notice, they can be supplied with competent Accountants, and young men will be assisted in procuring situations when desired.

For terms and other particulars please address

Every Man his own Miller.

PORTABLE CAST IRON GRAIN MILL.

Young America Improved and Perfected.

THE above mill was patented by Charles Leavett, of Ill., Feb. 27th, 1855. This mill took the first premium at the Ohio State Fair, 1855, over all other mills, and during the fairs of the fall of 1856, the first premiums over many others in the State Fairs of Ohio, New York, Tennessee, Michigan and Minnesota, also, at the County Fairs of the following Counties of Ohio and Indiana, viz: Guernsey, Crawford, Logan, Medina, Ashland, Wayne, Knox, Montgomery Clark, Erie, Lorain, Richland, Plymouth district, Chester, Frederick. In Indiana, Tippecanoe, Jefferson, Wayne, Fayette, Shelby, Jennings, Warren and Fountain.

Farmers, Saw Mill owners, Livery Stable men and all others feeding stock of any kind are invited to examine the merits and superior advantages of the above mill.

The Young America will grind as much corn in the cob, shelled corn, oats, barley, and all other grains for stock as any mill of the same size and with much less draft.

What we claim is great strength, durability and simplicity, being so simple that a child can learn to grind with safety.

In the next we claim the small expense to renew the grinding parts of the mill, and the ease with which the grinders are put on the mill, at a cost of not over three dollars, which makes it superior and more economical than any other mill. The grinding parts of the above mill are made of the hardest of cast iron, as hard in fact as cast steel can be tempered. Each set will grind from 5,000 to 10,000 bushels of grain, with proper usage. Besides the set of grinders on the mill, an extra set will be sent with each mill sold, making it equal to two common mills. When found necessary to change the grinders, almost any one can do it in twenty minutes.

As a proof of the estimation in which the Young America is held in Ohio, we would state that during the fall, winter and spring of 1855-56, 2500 were made and sold in Ohio, at Zanesville, by Douglas, Smith & Co., Hall & Allen of Mansfield, Eldridge & Faucener of Cincinnati, and at New Philadelphia.

At this time there is not less than 200 being sold every week in Ohio, at retail, besides those sold in other states east and west.

The above mill is being manufactured and can be furnished at wholesale and retail, from the Wisconsin Iron Works of A. J. Langworthy, on the water power in the City of Milwaukee. The mill is warranted perfect in all respects.

Dealers in agricultural implements and machines, of the State of Wisconsin, are requested to call and make arrangements for the sale of the above mills, to whom a liberal discount will be made on the retail price; also any others wishing to engage in a profitable business. Would call attention to good men who have teams, in any part of the State, who would peddle the mills through the country. Four can be taken on a wagon at a time—liberal arrangements would be made with them.

The above mill will grind from 8 to 20 bushels of grain per hour, in accordance with the kind and condition of the grain.

Price of the Young America $55—ready to hitch to and warranted to grind as fast as any mill of the same size when properly worked, and with less draft.

For further information address or see the undersigned, sole owner of the right to the State of Wisconsin.

FINE CLOTHING,

Second door above the Astor House, NEW YORK,

WOULD SUGGEST to the Trade, that they will be prepared for Spring sales with their usual extensive stock of the finer qualities of

READY MADE CLOTHING.

In reference to which they would suggest, that the facility with which their goods can be fitted, every garment being marked in lengths and breadths, the same size breast being varied to suit different proportions of the same measure, should give them the preference over any clothing, the sizes of which are indefinitely marked. The difficulty of readily suiting patrons from that fact, it is presumed, has been very generally realized. In a word, strict attention is directed in a determination to render our garments equal in every respect to the best custom work.   feb6d3mVO&CO

HEALTHY BREAD!

MADE WITH
JAS. PYLE'S DIETETIC SALERATUS.

THIS article is deprived of the caustic impurities, so well known to exist in all common Saleratus, thereby dealing destruction to thousands not aware of its injurious qualities. So destructive is it to the constitution of children, that where they and the parents have been regular consumers of Saleratus Bread, there is but little chance for recovery from infantile or contagious diseases. In this way thousands meet with premature Death—the sad reality of which is forcibly demonstrated, in the mortality among children, in the New England and other States, where warm bread and cake is so generally consumed.

JAS. PYLE'S DIETETIC SALERATUS

Is of vast importance to the public, and is rapidly coming into use. Being deprived of all caustic impurities, it is quite as harmless as flour. In point of economy it excels having powerful raising properties, and is altogether superior to Baking Soda. No intelligent lady will dispute this after trying it.

It is packed in pound packages, each bearing the name of James Pyle, without which it is not genuine. For sale by John Furlong & Co., E. A. Folsom, Chapin & Gregory, Milwaukee; Ethridge, Shoemaker & Co., Madison, E. H. Jones & Bro., Fond du Lac, Wis; A. Gross & Gorg, Chicago.   JAMES PYLE,

MEDICAL.

BOERHAVE'S HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR
DYSPEPSIA,
DISEASE OF THE KIDNEYS,
LIVER COMPLAINT,
WEAKNESS OF ANY KIND
FEVER AND AGUE,
And the various affections consequent upon a disordered
STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in many instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties.

CAUTION!

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given BOERHAVE'S HOLLAND BITTERS a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.
